WAYS TO SAVE ENERGY

Heating:

- Heating accounts for almost half of the average family's energy costs.
- Lower your thermostat a few degrees or turn it off all together when sleeping or away.
- Heat only the rooms you are using, instead of the whole house.
- Clean your filters on your furnace or heat-pump monthly.
- In cold weather, a ceiling fan helps to circulate warm air more efficiently.

Cooling:

- Use fans for circulation of air, they use much less electricity than air conditioners.
- Clean or replace your air conditioner's filter monthly.
- Seal gaps in air conditioning ducts with high quality duct tape.
- Weather-strip and caulk doors and windows.
- Use stove and bathroom fans only for short periods, as they suck cooled or heated air outside.

ASSISTANCE PROGRAMS

These programs can help pay your energy bills if you qualify:

- CARE (California Alternative Rates for Energy) offers a 20% monthly discount on gas and electricity, as well as helping you through the rising prices.
- HEAP (Home Energy Assistance Program) helps eligible households with home energy bills (wood, propane, fuel oil, electricity) by making a payment to a utility company on behalf of the household.
- Contact PCCDC or your energy utility company to receive an application for CARE or HEAP.
